mission statement

The mission of the Ohio Housing Council is to advocate and educate on behalf of our members to increase the quality and supply of affordable housing in the State of Ohio. We are committed to providing our members with current legislative awareness, a forum for voicing legislative and programmatic concerns and ongoing comprehensive educational opportunities.

The Ohio Housing Council, which is based in Columbus, Ohio, is a statewide association of affordable housing professionals whose goal is to increase production and preservation of affordable housing in the State of Ohio.

The affordable housing industry is one of the most highly regulated segments in the real estate development marketplace. It should not be so hard to develop, build, and operate multifamily affordable rental housing. But it is.

The Ohio Housing Council (OHC) is Ohio's best bet for staying in touch with all the industry's important issues, policies, program changes, new regulations and advances.

who is the ohio housing council?

Our goal is to help professionals involved in all aspects of the affordable housing industry to increase their participation in public policy debates and steer proposed regulatory requirements that could have a significant impact on the affordable housing industry in Ohio.

development and management of all critically important to OHC's mission. Members of the OHC also benefit from one of Ohio's premier lobbying firms, the Governmental Policy Group.

OHC Conferences/Events bring the knowledge and expertise of national professionals to Ohio. Attendees also benefit from the expertise of Ohio's most experienced and talented affordable housing professionals.

OHC Newsletters, email communications and the OHC website are valuable tools available to members to keep them informed and up-to-date on legislation impacting the affordable housing industry, funding and program administration changes, news, and successes in the industry.

OHC Committees: OHC member participation is the key to OHC success and the key to improving the environment of Ohio's affordable housing industry.
